## Government May Seize Nation's Coal Mines MEXICO MAY GET ULTIMATUM--CARRANZA FLEES CITY?

### COURSE OF ACTION IS OUTLINED; PARLEY IS NOT TO BE PROLONGED

STATE DEPARTMENT WILL INVESTIGATE MEXI-  
CAN CLAIM THAT CONSUL JENKINS MADE  
CONFLICTING STATEMENTS TO COURT.

### REFUSES TO ACCEPT BAIL; REMAINS IN PRISON, STATE DEPT. IS TOLD

Mexico City Officials Allege That New Constitution  
Makes It Impossible For Carranza Government to In-  
terfere In Prosecution By State Officials.

Washington, Nov. 28.—Although further investigation of facts  
will be made, the American government has no intention of receding  
from its position in the Jenkins case, administration officials declared  
today. The government they said is prepared for "the next step,"  
which may take the form of an ultimatum to the Mexican govern-  
ment.

Administration officials indicated that the negotiations with Mex-  
ico would not be prolonged if unsatisfactory; that the American govern-  
ment had decided upon a course of action and was prepared to  
carry it out should that become necessary.

The Mexican reply to the American demand for the immediate release of  
Jenkins raises a new issue that Jenkins  
made contradictory statements to the  
trial judge and this, officials said, must  
be investigated. Instructions will go  
forward to the embassy at Mexico City  
today to investigate this charge and  
also obtain copies of the indictment and  
charges against the consular agent.

Legal officers of the state department  
today were studying Article 104, para-  
graph 6, of the new Mexican constitu-  
tion, which provides that "the federal  
tribunals shall have jurisdiction over  
all cases concerning diplomatic  
agents and consular officers." The  
Mexican government in its reply to the

American demanding Jenkins' release,  
stated that his case was in the state  
court at Puebla and that consequently  
the federal government could not inter-  
vene. Since Jenkins is a consular agent  
of the United States, officials are in-  
clined to the opinion that under the  
Mexican constitution the state courts  
have no jurisdiction in his case.

While officials have not yet seriously  
considered the question of Jenkins' re-  
lease on bail, they said there might be  
advantages technically in his refusing to  
accept bail. In its reply the Mexican  
government pointed out that Jenkins  
could obtain his liberty by furnishing  
the 1,000 pesos bail demanded.

### CARRANZA AND OBREGON FACTIONS CLASH IN MEXICO CITY IS REPORT

Reliable Advices Reaching Border Tell of Fighting In  
Streets of Capital—President Flees to Queretaro For  
Safety Dispatches State.

San Antonio, Tex., Nov. 28.—Fighting in Mexico City between fac-  
tions dominated by President Carranza and General Alvaro Obregon  
was reported in apparently reliable advices received here today at  
the Mexican border.

It was reported that President Carranza had fled to Queretaro  
for safety. The chief executive only recently returned to Mexico  
City from Queretaro, where he had been during the lingering, fatal  
illness of his wife.

### VISITS SON'S HOME; DIES OF APOPLEXY

Coming to the home of his son in  
Bates street to assist with the butch-  
ering, Thanksgiving day, Simon Redman,  
76, living on R. D. 6, was taken sud-  
denly ill and died within an hour.

The deceased had eaten a hearty  
breakfast and left early for the home  
of his son, Elmus Redman in 44 Bates  
street. While helping with the work  
he was taken ill and died at 10 o'clock  
death resulting from a stroke of apoplexy.  
He is survived by four sons,  
Elmus, Charles and Ross of Newark,  
Frank of R. D. 6, and one daughter,  
Mrs. Rosa Victor of near Outville.

Short funeral services will be held  
at the home of the son in Bates street  
Saturday morning at 11 o'clock, and  
services will be held at the Pleasant  
Hill church at 1 o'clock. Elder C. E.  
Stuckey officiating. Interment at  
Pleasant Hill.

### ITALIAN ADMIRAL AIDS D'ANNUNZIO'S OPERATION

Paris, Thursday, Nov. 27.—Admiral  
Enrico Millo, commander of Italian oc-  
cupation forces along the eastern coast  
of the Adriatic, is working hand in  
hand with Captain Gabriele D'Annunzio,  
according to information from an  
authoritative source. All along the  
Dalmatian coast it is said the people be-  
lieve the Italian fleet and D'Annunzio's  
army are cooperating for the purpose of  
occupying all of Dalmatia.

In Jugo Slav official circles here it  
is felt that the excitement among the po-  
pulation may result in uprisings which  
will make Serbian intervention abso-  
lutely unnecessary.

ELYRIA PAPER SUSPENDS.  
Elyria, Nov. 28.—It is announced  
that the Sunday News had been dis-  
continued. Inability to obtain print  
paper was given as the cause.

### HEALTH DEPT. HAS BALANCE OF \$208 AUDITOR SAYS

Dodd Declares Fund Re-  
maining to Credit of  
Health Department Is  
Sufficient to Buy Fumi-  
gators.

City Auditor Dodd took issue Friday  
with Dr. W. H. Knauss, health officer,  
on the matter of funds for lifting quar-  
antine from Newark homes.

Knauss gave a statement Wednesday  
to the effect that his department has  
not been provided with funds with  
which to buy fumigators, adding that  
quarantines cannot be lifted until the  
homes are fumigated.

Dodd cites city records to show that  
there is a balance of \$208.76 to the  
credit of the health department.

Knauss says this is more than covered  
by bills outstanding. Dodd contends  
that the comfort of afflicted families  
should take precedence over the claims  
of creditors in such a case. He ac-  
cuses Knauss of attempting to "pass  
the buck" to the city council.

### GERMANS REFUSE DEMAND OF ALLIES

New Government Will Not  
Make Good For Destruction  
of Warships Sunk at  
Scapa Flow.

Berlin, Nov. 28.—It is stated in au-  
thoritative quarters here that Germany  
will not comply with the demand of the  
allies for 40,000 tons of docks,  
dredges and tugs as an offset to the  
German warships sunk at Scapa Flow.

It was indicated that Germany would  
stand pat on her proposition to refer  
the dispute to the League of Nations.  
Germany should not be held responsible  
for the acts of the marine forces at Scapa Flow.

### BROTHERHOODS FAIL TO ACT ON OFFER MADE

Cleveland, Nov. 28.—The general  
chapter of the Brotherhood of Loco-  
motive Firemen and Enginemen, about  
180 in number, met in separate session  
here today and discussed the demands  
of their organization for a wage increase  
of 40 per cent.

The demands were presented to the  
railroad administration in September  
but no reply has been received. The  
Brotherhood of Railroad Trainmen,  
who made similar demands, were  
advised that their question was up to Presi-  
dent Wilson.

The conference of general chairmen  
of the four brotherhoods, called by their  
chiefs to consider Director General  
Harris' offer of time and one-half for  
slow freight service, based on a speed of  
less than 12 1/2 miles per hour, provided  
all arbitrators and special allowances  
now in working agreements are abo-  
lished, adjourned last yesterday without  
accepting or rejecting the proposition.

Sub committees head by the chiefs of  
the four organizations and clothed with  
full power to act were authorized to go  
to Washington to determine what the  
offer meant.

A telegram, sent to the director gen-  
eral asked for a conference on December  
2.

### DRY LEADER'S SIGHT DESTROYED BY PRANK

London, Nov. 28.—The right eye of  
William E. (Pussyfoot) Johnson, the  
American prohibition worker and or-  
ganizer of the Anti-Saloon League, was  
successfully removed last night. Physi-  
cians in attendance explained, in a bal-  
letta issued after the operation, that  
removal of the eye was necessary to  
save the left eye and also that the pain  
could not have been relieved otherwise.

Mr. Johnson's eye was injured on  
November 12 when he was dragged  
from a platform by students while he  
was making a prohibition speech and  
paraded through various streets of Lon-  
don by the "raggers."

### JUGO SLAVS ASSURED OF EARLY SETTLEMENT

London, Nov. 28.—Great Britain has  
given Jugo Slavs assurances that the  
Adriatic question will soon be taken up  
by the supreme council and that Great  
Britain's influence will be used to insure  
a just and equitable settlement in ac-  
cord with the life and interests of Jugo  
Slavs, according to private dispatches.

SPAIN BREAKS WITH SOVIET.  
Madrid, Thursday, Nov. 28.—Spain  
has broken off all relations with the  
Soviet government of Russia. It was  
announced in the Cortes today by the  
minister of foreign affairs who said  
this step had been taken because the  
Spanish embassy in Petrograd had been  
twice attacked and the charge d'affaires  
forced to leave Russia.

Copenhagen—Press dispatches say hos-  
tilities between Lithuanians and the Ger-  
mans and Russians stopped by inter-  
national Baltic commission.

### BEER GUSHES INTO CITY SEWER FOR HOURS; TEARS GUSH DOWN CHEEKS OF OLD GUARD

Upper picture shows, left to right: Mayor W. H. Clindiner, Police Chief  
Theodore Becker and William Glenn Voliva, pouring beer into sewer.  
Below: Mrs. Grace Knippen helping.

Twenty-eight thousand, one hundred and twenty-four bottles of real  
beer were emptied into the city sewers at Zion City, Ill., recently with  
appropriate (from the dry's viewpoint) ceremonies. The beer was brewed  
in Wisconsin and shipped into Illinois. The city officials confiscated and de-  
stroyed it. It took three hours to empty the bottles. The beer was poured  
into a trough connected with the sewer. Mayor Clindiner, Police Chief  
Becker and Wm. Glenn Voliva, noted enemy of tobacco and beer, emptied the  
first bottles while hundreds looked on—and some in the rear ranks wept.  
Whether anyone "sleeved" a bottle or two during the dumping isn't known.

### COURT WOULD RUN TOLEDO TROLLEYS

Federal Judge Suggests  
Plan to Resume Immedi-  
ate Operation of Cars  
While Settlement Is Be-  
ing Reached.

Toledo, Nov. 28.—As Toledo today  
started on its twentieth day without  
street car service, Federal Judge Killits  
came forward with a plan of settlement  
providing for temporary operation of  
the lines for 60 days under his direc-  
tion.

Killits proposes that he appoint a  
commission of ten men to be approved  
by the city authorities and that this  
commission shall work out alternative  
ordinances, one for a franchise under  
the cost-plus plan, and the other for  
municipal operation. These ordinances  
would go to the people.

Killits proposes that 60 days shall be  
consumed in these negotiations and that  
during that time the federal court shall  
operate the street railway system, dic-  
tating routes and fares.

Killits refuses to state what action he  
would take if one party accepts the  
proposal and the other refuses. If both  
the city and the Toledo Railways and  
Light company refuse, the judge would  
make no further effort to help in a  
settlement.

Toledo today was struggling along  
under a hampered bus service due to  
snow and slippery streets. The street  
cars, denuded of trolley poles, are still  
across the line in Michigan, where they  
were taken by the company after the  
people sustained an ouster ordinance,  
ordering the cars off the streets. This  
was the result of indignation over a  
fare increase.

Judge John Killits, has given the  
opinion that the utilities commission  
has jurisdiction over street railways,  
because all interurban cars entering and  
leaving through the city used the  
street lines until the power was shut  
off.

Henry Doherty takes the stand that  
the law does not cover the situation  
here, and said he will appeal to the  
highest court.

### ARMY AND NAVY GRID SQUADS IN NEW YORK

New York, Nov. 28.—Nearly 100 foot-  
ball players forming the squads of the  
United States naval and military acad-  
emies, arrived here this morning for  
their annual game to be played here  
tomorrow afternoon. Both teams and  
substitutes will practice at the Polo  
grounds during the day. The workout  
will be held behind closed gates and at  
different hours. The army lineup ap-  
pears to be definitely decided upon, but  
the navy combination still is uncertain.

### VOLUNTEERS DIG COAL TO RELIEVE KANSAS SHORTAGE

Topeka, Kansas, Nov. 28.—Kansas  
today began the enrollment of vol-  
unteers to dig coal and according to  
state officials, the appeal of Gov-  
ernor Henry J. Allen for men was  
being readily answered. The gov-  
ernor estimated about 400 men had  
been accepted for service at the four  
recruiting offices estimated in the  
mining districts of the state. From Lawrence came word  
that students of the University of  
Kansas had made arrangements to  
enter the mines and that it was  
expected credits in their university  
work would be given those who  
joined the force of coal diggers.

State Labor Commissioner Craw-  
ford took up with railroad officials  
the matter of transporting men  
from adjoining states who have ap-  
plied for work in the coal mines.

### NEGRO'S ASSAULT WITH HAMMER CAUSES DEATH

Hamilton, O., Nov. 28.—Injuries re-  
ceived at the hands of a midnight neg-  
ro prowler who used a heavy hammer  
in beating five of his family Monday night,  
today resulted in the death of Peter  
Agnew, head of the family. Agnew had  
been wounded above the right eye.  
Death came suddenly at Mercy hospital  
early today after physicians had not re-  
garded such a contingency as likely.

Mrs. Agnew, at the hospital, is suffer-  
ing from a fractured skull and other  
injuries. The daughter, Gladys, whose  
index finger had to be amputated as a  
result of a blow from the hammer, is  
recovering, as are her two brothers, also  
injured.

Death of Agnew changes the case to  
one of murder, but the police admit  
no clues exist as to the perpetrator,  
who entered the Agnew house after  
midnight and beat members of the fam-  
ily. The latter agree as to details and  
the police have no evidence of a family  
quarrel.

### YANK SALESMEN BEAT SWEDES TO MARKETS

London, Nov. 28.—Swedish and Danish  
merchants who planned a commercial  
coupe in Germany have suffered as the  
result of American commercial energy  
in the past few months.

An American salesman just returned  
to London from the continent says that  
large quantities of American goods are  
held in Sweden and Denmark that can-  
not now be disposed of. The Swedes  
and Danes purchased the goods from  
the United States in hopes of pushing  
it into Germany the moment trade  
opens. When that time came, they  
found that American representatives  
had arranged to supply the demands at  
prices under what the Scandinavian  
middlemen could quote. Consequently  
the Swedes and Danes still have their  
goods.

### WILL USE U. S. TROOPS TO GUARD MINERS WHO WISH TO RESUME WORK

FEDERAL OFFICIALS WILL PAY 14 PER CENT  
WAGE INCREASE REJECTED BY MINE  
UNION OFFICIALS.

### FUEL ADMINISTRATION WILL OPERATE MINES IF OWNERS SHOW INDIFFERENCE

Expect Most of Operators Voluntarily to Pay Increase  
Suggested—Profiteering By Labor or Capital Will Not  
Be Tolerated, Garfield Says.

Washington, Nov. 28.—Seizure of bituminous coal mines where  
the owners do not show a disposition to cooperate in increasing pro-  
duction and use of troops to protect all miners who desire to work  
has been decided upon by the government in an effort to end the  
bituminous coal strike, it was stated today officially.

In mines seized by the government the 14 per cent wage advance  
agreed upon by the cabinet will be put into immediate effect, it was  
said.

The plans of the government were agreed upon by the cabinet  
last Wednesday, officials said, so as to meet the situation resulting  
from a refusal of the operators or miners, or both, to agree to the  
government's wage increase proposal.

Cabinet officers expect many mine  
owners to put into effect voluntarily  
the 14 percent wage increase. Whether  
the mine of those refusing to do so  
would be seized was not made clear, but  
it was said that there was no general  
plan for government control; that each  
individual case would be decided on its  
merits.

Mines taken over by the government  
will be operated by the fuel adminis-  
tration but details as to compensation to  
the owners were not disclosed.  
While various federal agencies were  
preparing to carry out the government's  
program, the fuel administrator set out  
most emphatically "that profiteering  
on the part of either labor or capital  
will not be tolerated."

Miners cannot and will not be  
asked to bear the increased burden of  
higher prices of coal nor of the payment  
of a large sum as wages to any special  
class of workers," he said.  
Pointing out that his conclusions had  
been reached only after careful and ex-  
haustive research, Dr. Garfield de-  
clared neither the protestations of the  
miners against the 14 per cent wage  
advance, nor the insistence of the op-  
erators that they be permitted to charge  
a higher price for coal would induce  
him to alter the decision that a 14 per  
cent increase was the amount necessary  
to bring the miners' wage up to the  
level of living costs and that the op-  
erators could pay this advance without  
increasing prices to the public.

Officials of both the operators and  
miners organizations professed inabil-  
ity to even forecast what developments  
the next 48 hours might bring forth  
and both sides frankly admitted they  
were awaiting the government's next  
move. In official circles, despite the  
lack of public expression, however, the  
view was held that only drastic action  
could and would be taken and that  
the mines would be opened at whatever  
cost.

proposal approved by the cabinet, for

### MRS. ASTOR WINS PARLIAMENT SEAT

Has Majority of 5000 Over  
Nearest Opponent For  
Seat From Sutton Divi-  
sion of Plymouth.

Plymouth, Eng., Nov. 28.—Lady As-  
tor, American born wife of Viscount  
Astor, was elected to parliament from  
the Sutton division of Plymouth in the  
balloting of November 15.—The result  
was announced after count of the bal-  
lots here this morning.

The vote stood: Lady Astor, Union-  
ist, 14,495; W. T. Gay, Labor, 9,292;  
Isaac Foot, Liberal, 4,138.

Lady Astor's philanthropic endeavors  
here during the last 10 years brought  
her considerable support, as well as her  
espousal of anti-labor legislation which  
won her a large vote among the wo-  
men. She drove about the constituency  
on a speaking tour this afternoon  
and evening. The campaign attracted  
wide attention but in large measure to  
Lady Astor's nationality her unconven-  
tional electioneering methods and her  
barbed and witty replies to questions.  
Mrs. Lloyd George and other prominent  
political personages spoke in her be-  
half.

Lady Astor became a candidate after  
the death of Viscount Astor of Hove,  
Hall had left her husband heir to the  
title and necessitated his retirement  
from the lower house of parliament.  
Lady Astor, who was formerly Miss  
Nannie Langhorne, of Virginia, is the  
mother of six children.

### FIRE DESTROYS COLLEGE BUILDING

Old Structures Once Used  
By Johns Hopkins Uni-  
versity Burned, Entire  
Loss of Million Dollars.

Baltimore, Md., Nov. 28.—The group  
of buildings formerly occupied by Johns  
Hopkins university and about a score  
of other structures in the square  
bounded by Howard, Ross, Monument  
and Eutaw streets, were either de-  
stroyed or wrecked by fire early today,  
entailing a loss roughly estimated at  
\$1,000,000. The big blaze started in the  
Hall of the Hopkins group from an  
undetermined cause. Explosions oc-  
curred almost instantly and heavy ex-  
plosions occurred in the buildings from  
time to time.

Many firemen were injured, but none  
seriously.  
McGow hall had been used recently as  
a welfare building and previously as  
the headquarters of the chemical war  
fare service of the army, now moved to  
Edgewood Arsenal. Many notable con-  
ventions were held there.

Among the buildings wrecked or dam-  
aged were Levering hall, the gymna-  
sium, the big old laboratory and the  
Baltimore City college annex.  
A number of rescues were made by  
firemen including a blind girl who was  
taken from a third story and several  
families.

Dr. Frank J. Goodnow, president of  
the university which is now located at  
Homewood, said that the buildings were  
covered by insurance. The other prop-  
erty damaged was the city buildings oc-  
cupied by small tradesmen and a num-  
ber of dwellings used as rooming and  
boarding houses.

High winds swept the sparks a half  
mile away to the center of the city,  
and hundreds of men were seen on the  
roofs of department stores stamping out  
incipient flames and using water and  
chemicals.

### FIRST LEAGUE MEETING TO BE HELD IN BELGIUM

Brussels, Thursday, Nov. 27.—Rep-  
resentatives of France, England, Italy,  
Belgium, Switzerland, Holland, Sweden,  
Norway, Portugal, Greece, Poland,  
China and Japan will meet here on  
December 1 to discuss the adoption of  
measures and suggestions for the es-  
tablishment and functioning of the  
League of Nations. The conference,  
which will be held under the patronage  
of the Belgian government, was  
evoked upon the initiative of the French  
Association for the League of Nations  
and of the League of Nations Union of  
England.

WILL SEND NOTE.  
Paris, Nov. 28.—Germany is ex-  
pected to send new notes to the peace  
conference concerning the surrender of  
those charged with responsibility of  
crimes committed during the war, and  
the replacement of German warships  
sunk at Scapa Flow by their crews, ac-  
cording to the Bresse de Paris.

AUSTRALIAN LOSES BOAT.  
Calgary, Alberta, Nov. 28.—Thomas  
Gibbons, of St. Paul, easily defeated  
Mike King, Australian light heavy-  
weight, in their 15-round match last  
night. The St. Paul boxer was  
decisive throughout in early  
rounds.

## COL. WELLS' SONS ARE PALLBEARERS

Funeral Will Be Held Saturday Morning at Second Presbyterian Church — Rev. B. R. Weld Will Officiate.

The six sons of Colonel William C. Wells, Charles, William, George, Sidney, Richard, and Eugene, will act as pallbearers at the funeral which will be held Saturday morning at 10 o'clock in the Second Presbyterian Church. The pastor, Rev. B. R. Weld will officiate and interment will be made in Cedar Hill cemetery.

Colonel Wells dropped dead Wednesday afternoon at 2 o'clock as he opened the door of the Larkin grocery at Union and Hancock streets. He had seemed in the best of health lately and left home that afternoon to come down to see Charles F. Dean. His son Charles stated this morning that his father was probably waiting for the car and intended stepping into the store to buy some tobacco. He fell on the steps of the store and was dead when picked up. His son Charles was sent for and came immediately, also his physician, Dr. C. W. Smith, but nothing could be done. Coroner Richards pronounced death due to a heart attack.

Colonel Wells was born in Lancaster and was 64 years of age. He was educated in Lancaster and made Newark his home for 44 years.

He was identified with every project to bring new industries to Newark, and was always very successful in promoting plans for the benefit of the city. He, with William E. Miller, platted the Park addition at the time the Jewett Car company was brought to Newark, for the purpose of raising money to pay the bonus. He had the amount of the sale of lots being paid to the Jewett company.

The three terms that Colonel Wells, a Democrat, served the school board he was elected in a Republican ward. He managed Buckeye Lake park for six years.

## WILL USE U. S. TROOPS

(Continued From Page 1)  
A 14 per cent wage increase was rejected by the miners with bitter comment and accepted by the operators, although they protested it would put some of the mines out of business because there was no provision to increase the price of coal correspondingly, still withheld comment early today. Some of those in touch with the situation expressed the belief that the cabinet in considering the Garfield proposals had decided on a course of action in event of rejection of the 14 per cent compromise and that an immediate announcement of their proposed action would be made.

In some quarters a rift in the clouds of uncertainty was seen in the statement by several of the operators that as an organized body they had ceased to function and that individual necessity and inclination would govern their actions. This was taken as an indication that some of the operators would attempt to resume coal production, regardless of the strike or action by other operators by dealing directly with their own employees. They were said to be hopeful that when statistics of the 1919 operations of the mines are in the hands of the government and which they declared would show profits below those of former years, they could be permitted to make such adjustments in selling prices as would permit a fair and reasonable profit.

## MINERS APPARENTLY DETERMINED IN STAND

Chicago, Nov. 28.—Cold weather with snow and sleet storms today had spread over the middle-west and south-west and rendered more critical the fuel situation brought about by the strike of bituminous coal miners, who have been idle four weeks. In many small cities and towns, the coal shortage was acute, with actual suffering in prospect in some.

Moderation of the cold wave by tomorrow, however, was forecast. In the large producing coal fields of Illinois, Indiana, Ohio and Pennsylvania and West Virginia the miners apparently were firm in their determination not to

## JURY DECIDES AGAINST BOWSER

Verdict of \$2800 Is Awarded Kelton E. Mitchell Who Alleged Wrestling Match Was Fixed.

A common pleas jury has decided that the Bowser-Trapsky wrestling match held at 11 North Fourth street, Nov. 22, 1917, was "fixed" and has awarded \$2,800 to Kelton E. Mitchell of Dunkirk, O.

Mitchell sued Paul Bowser, C. A. Trapsky, the wrestlers and Harry W. Vogelmeier, George Barker and Frank P. Stigel, alleging they "framed" him. Mitchell brought suit for \$2,800, the amount awarded him with interest. Joseph W. Horner was his attorney. L. C. Russell was attorney for the defendants. Bowser said Friday the case probably would be appealed.

In Chicago today there were renewed reports that train schedules were to be curtailed further, but there was no confirmation from Walker D. Hines, director general of railroads. The conference of governors which provided the government failed to act, probably would be held at St. Louis, Chicago or Indianapolis. He indicated the states might take over the mines and operate them.

The question of jurisdiction over 52 prisoners arrested at Carneyville, Pa., today, by federal troops ordered with effect at Kansas City, next Sunday, remained undecided. They still were held in jail.

It was stated by operators that the strike of Wyoming miners had been called off by federal troops, who were alleged to be radicals.

is recommended for constipation, biliousness, sour stomach, indigestion, sick headaches, stomach gas, sluggish liver, and as an internal antiseptic to disinfect the whole digestive tract.

is not an ordinary laxative by any means. It possesses laxative properties, of course, and will do everything that the very best laxative prescriptions can do. But it has another duty—a double purpose that sets it apart from the usual.

is an internal antiseptic. It overcomes the disease germs which infest the intestinal tract and helps drive them out of the system along with the poisons which are generated by sluggish bowels and liver.

overcomes constipation which is said to be the cause of 90% of all human sickness. But even if you are not troubled by constipation, eat Partola candies regularly for their beneficial antiseptic effect on the digestive organs.

comes in the form of delicious peppermint candies. There is no suggestion—taste or smell of medicine about it. Therefore it is favored by young and old alike. Especially is it popular with children. People say that Patrola is as "Delicious as Bon-Bons."

Following the citation by the French, the cross de guerre was presented to William Jones, of near Granville, Thursday afternoon at 3 o'clock in the courthouse park. Private Jones already wears the D. S. C. (Distinguished Service Cross).

The ceremony incident to the presentation was arranged by the American Legion, E. C. Wright, chairman of the Licking county war work, made the presentation to Jones. Benjamin H. Weld, chaplain of the local chapter of the American Legion, made the address. He complimented Private Jones on the acts which had won for him such merited honor.

The athletic council representing the athletic life in the factories of Newark who are interested in the industrial program of the Y. M. C. A. will meet Saturday night at the Y. M. C. A. to act on several important things that concern the industrial basketball league.

The more important issue concerns the man who works on Saturdays only. Several other things of minor importance will be presented for the council's consideration.

## SNOW BLANKET COVERS WESTERN UNITED STATES

Chicago, Nov. 23.—Snow ranging in depth from two feet to an inch today covered most of the country between the Mississippi river and the Sierra Nevada mountains, and from Canada to northern Texas, with low temperatures prevailing throughout the area. The fall occurred in northern Illinois, Indiana and as far east as Toledo, while word came that some snow fell in Los Angeles, California, and that two inches of snow covered the ground at the aviation field near Riverside, California.

South of the snow belt heavy rains fell and floods swept the lowlands bordering the Salt and Agua Frio rivers in Arizona with possible loss of life. Suffering in many places in the central and southwest regions was in prospect because of the extreme cold and the limited fuel supply resulting from the coal strike. Cattle on the western ranges also were reported endangered. In the western plains states trains were badly delayed and wire communication were crippled.

Lamar, Wyoming, was the coldest place in the country, according to reports, the temperature there being 20 degrees below zero. At Abilene, Texas, it was six degrees above zero.

## SEEKS ARMY GOODS IN SMALL SHIPMENTS

Army food, long delayed in inspection and shipment from the Columbus supply depot, may be delivered more promptly hereafter in smaller consignments.

The delay of three carloads of foodstuffs from the Newark municipal warehouse has aroused Mayor Atherton, who went to Columbus Friday to try to arrange for the shipment of small consignments by motor truck. The car lots were loaded early last week, but the inspection process has held them up. City authorities hope to receive the supplies so they may be offered for sale the first of the week.

## HOW MRS. BOYD · AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

**Flowers Foretell Rain.**  
The ordinary clover and all its varieties, including shamrock, are barometers. When rain is coming the leaves shut together like the shells of an oyster. For a day or two before rain comes their stems swell to an appreciable extent, and stiffen so that the leaves are borne more uprightly than usual. This stem swelling when rain is expected is a feature of many flowering grasses.

SEWAGE DISPOSAL.

Great masses of population are so located that they have been unable, or think they are unable, to put in modern sewage systems. This is true not merely in country towns, but in outlying neighborhoods around cities of some size. Many country towns of considerable population are built up in so scattered a way, that the cost of a sewer system would be prohibitive.

Consequently a big fraction of the population is all the time pouring into the earth quantities of impurities, frequently contaminating water supplies and favoring the spread of epidemic and other diseases.

A great many people have been astonishingly careless. Wells will be located within 20 and 30 feet of cesspools or earth closets. In the older homes this practice is often defended on the ground that the family has lived there for years and has always been healthy. Of course some persons are so robust that they can absorb germs and throw them off. But most people have their periods of run down and weakened condition, when they are liable to infection.

All these perils can be avoided by the installation of septic tanks for sewage, where sewer pipe systems are not practicable. The time is coming when public sentiment everywhere will insist that sewage be scientifically disposed of.

Even the isolated country home has no right to maintain dangerous conditions. If through its carelessness it contracts typhoid, it may infect a whole neighborhood by the distribution of milk and other products. The cost of a correct sewage equipment for isolated neighborhoods is not large. It adds salable value to any property.

MODERN WOMEN'S CAREER.

It may be said that women will not be likely to attain large success in business, unless they make business their first end in life. To do that, it may be said they would have to de-feminize themselves and become unattractive to men. Also women seem often not to understand an equal chance in the commercial world, men being preferred because their careers would not be interrupted by marriage.

These difficulties would be minimized if the higher educational institutions did more for women ambitious to enter business. A constantly increasing number of women are entering the legal and medical professions, and there are some successful women ministers. Many women are fitting themselves for and filling acceptably the highest positions in the educational world, formerly held exclusively by men.

If fitted for the higher ranges of business success, there is no reason why a large number of women could not make good equally well.

The girls' colleges, instead of giving exclusive classical educations, should add elective courses in business administration and efficiency methods. Women manage with great skill such enterprises as big church and charity fairs, drives for charitable causes, etc. They should be equally capable if educated for it, of taking high positions in business. We personally know of one woman who has made a great success as president and general manager of a national bank.

And as for business education tending to impede marriage, there is an undertone of sentimental feeling where men and women meet, that is not perceptible in the rush and hustle of trade. A great many romances have started among dry and dusty ledgers.

AMERICAN SOVEREIGNTY.

One of the current misrepresentations of the League of Nations, is that it creates a powerful "super-state," which will take over the government of the world, and reduce American sovereignty to a subordinate position. If the League has faults, it is in being too weak rather than too strong. Except in matters upon which all easily agree, and great emergencies that threaten a terrible war, it is going to be difficult for the League to take decided action, owing to the requirement of a unanimous vote in the Executive Council.

Any one of the nations represented in that council will be able to block action by withholding its consent. The one vote of the United States would be just as powerful as all the rest.

Even in the case of a controversy between the United States and some nation, in which case neither party could vote in the Executive Council, the United States would be just as well off as if it remained outside the League. It can always threaten to withdraw if the nations combine against it. In view of the powerful position of the United States, with all its wealth and man power and prosperity, it is going to be courted and its friendship will be sought. The nations will never combine against it, because they will always be competing to see which will win its favor.

Every day accumulates evidence that the people are not frightened by bogies created by superheated imaginations. When the Republicans of Senator Lodge's own home state called for the prompt ratification of the treaty without amendment, it would seem as if some of the blind might begin to see glimmer of light.

The students who come home Thanksgiving Day to see Father and Mother, can be found at the dwellings of the Home Town Girls.

Some of these people who visit their cellars so frequently nowadays need a pair of non-skid shoes.

The famous old song will have to be paraphrased to run "Everybody strikes but Father."

SENATOR LODGE'S WISH.

(By Prof. W. H. Johnson)  
"I wish to carry those reservations into the campaign." So says Senator Lodge, Chairman of the Foreign Relations Committee of the Senate, not because of any fitness he has ever shown for such a tremendously important position, but through the working of the Senate system of seniority in committee positions—a system that has never meant anything but inefficiency in the Senate and harm to the country.  
Mr. Lodge's wish to make a partisan political issue out of the settling of one of the most latent matters of foreign politics ever before the American people is an insult to the patriotism and intelligence of every thoughtful American. Senator Hitchcock has no such wish. President Wilson has no such wish. American business men certainly have no such wish, nor do I believe that the majority of the Republican party has any such wish, or even if that part of the party which one might designate as politicians. It would be a crime against common sense, a crime against political and national decency, and in the end a fatal crime against Mr. Lodge's own party.  
It is in the power of the sober part of that party to prevent such a crime. Mr. Lodge's Bourbonism can be taken down. He himself may go arm in arm with Reed of Nebraska, but he cannot carry his party with him unless it has at heart already sunk to the Jim Reed level.

AFTER THE VICTORY.

(Cleveland Plain Dealer)  
One of the persistent arguments of those opposed to the recent clause in an amendment was that its adoption would be likely to increase the taxes paid by owners of real estate, urban and rural. We never thought much of the argument, but a majority of Ohio voters evidently did.

Now comes up again the perennial problem in Ohio; where shall revenue be found sufficient to finance state and local government activities? It confronts the general assembly as it prepares to get under way again in December. There may be increased public income—Somebody hundreds of thousands of somebodies—must pay more taxes of one kind or another.  
From Columbus comes the suggestion that, since Ohio insists on being wedded to the uniform rule taxation, the uniform rule should be made to do its full duty as a revenue producer. To do this, property must be assessed at its full value in money, as the constitution says it shall be. Property is not now generally so assessed.

This means inevitably that real estate, thought for the owners of which brought such copious tears to the eyes of anti-classificationists in the recent campaign, will be asked to bear a burden heavier than their present unjust burden. Even popular majorities cannot undermine logic.

Married Strangers

A powerful story dealing with a problem being worked out in thousands of American homes to-day—that of the husband and wife who find they grew apart while the man was off to war.

By FRANCES DUVALL

Copyright, 1919, by The Wheeler Syndicate, Inc.

X.—An Old Admirer.

Keitha stared at her husband incredulously. "Of course you don't mean that?" she gasped. He leaned across the door of the cab to flick his half-smoked cigarette from its holder. "Of course I do mean it," he answered lightly. "It was all very well for you to work while I was in the army and all that sort of thing—everybody was doing it. But now I look like the devil for you to keep it up now that I'm home." "Why, please?" Keitha's voice was dangerously crisp. Captain Bennett made an impatient gesture. "Don't you suppose I'm capable of supporting my own wife?" "Naturally, but I worked before I was married." "But that was perfectly understandable. You did it for a tad and because you had nothing else to do. Now, you will have domestic duties, for, believe me, I intend to have a real home." Keitha. No hotel suites for me. I'm going to have a real hearth, and not one that burns gas logs either." Keitha's reply was cut short by the taxi's driving to the curb of a smart, avenue gown shop. The chauffeur sprang down and opened the door. "We'll have to discuss this some other time," murmured Keitha, gathering together her sunshade and handbag. "There's really nothing more to discuss," said Bennett coolly, as he sprang out and assisted her to alight. The question is irrevocably settled, meet me at Belmont's for lunch. I'll pick up Captain Moore on the way up there."

XI.—Recollections.

"Tom Moore" gasped Keitha, "How heavenly to see you! And what a surprise!" The tall officer raised his brows comically. "Surprise! My word! A knockout! Bennett here, never told me you were married. Of course, when he said she was the most beautiful girl in the world, I might have guessed, but I put it down to the usual bridegroom infatuation."

"See here," cut in Captain Bennett. "What's this old-home-week reunion? You two seem to know each other rather well."

"Well," echoed Captain Moore, "I—I should say we do, ch Keitha?" "I was engaged to Tom all one spring ago," Keitha explained, "and he was a very nice fellow. He made a tremendously nice fiancé," she added, patting his arm with mock affection.

"No better than you, Keitha, no better than you," Moore assured her gallantly. Captain Bennett was regarding the pair with the shadow of a frown. "I'm beginning to think that a husband is dropped in this party," he remarked dryly. "Perhaps you'd rather pursue your reminiscences out of my earshot?"

Moore laughed and clapped him on the shoulder affectionately. "Getting jealous, old top?" "Hardly—of you," Captain Bennett's grin was rather half-hearted. "Whow!" Moore whistled softly. "To think that my 'buddy' would pull a stinging retort like that on me! Cheer up, my boy, you're about to run across a lot of your wife's past."

**FIGURES PROVE VALUE OF TRUTONA'S MERITS**

**WANTS FRIENDS AND NEIGHBORS TO KNOW FACTS**

**"Trutona Has Done Wonders for Me," Mrs. Greeley Gratefully Declares.**

**"GOING TO KEEP USING IT" IS HER DETERMINATION**

Steuenville, O., Nov. 28.—There is probably no happier woman in the city of Steuenville than Mrs. Kate Greeley, 45 years old, who lives at 224 North Third Street. One has only to read the following public endorsement of Trutona, the Perfect Tonic, to become convinced of this.

"For a year or more," Mrs. Greeley says, "I have suffered from stomach and kidney trouble. I felt tired and sleepy all the time, being terribly ambitious and wanting to lie in bed. Whenever I did a little housework I became so tired that I had to stop. I suffered from rheumatic pains in my limbs which ached so badly that I could hardly walk.

"But I don't have these troubles anymore," she concluded. "Since I have taken Trutona the pains and aches have disappeared from my back and limbs and, in fact, I feel like a new woman. I want all my friends and neighbors to know that Trutona has worked wonders for me and that it brought results where others failed. Trutona is a wonderful medicine and I am going to keep on using it.—Adv.

175,000 Bottles of Perfect Tonic Sold in Past Nine Months—Grateful Users Laud Preparation.

To ask whether or not 100,000 people might make the same mistake is decidedly superfluous, and, by the same token, any inquiry regarding the worthiness of Trutona is equally superfluous.

One hundred and seventy-five thousand bottles—approximately fourteen carloads—of Trutona have been sold in the past nine months.

But in view of the fact that in innumerable instances of stubborn illness, single parties have found Trutona so beneficial as to use from six to ten bottles, it is a conservative way to say that 100,000 people have actually used this remarkable tonic. In the city of Louisville, Ky., and vicinity alone, where Trutona was first introduced, 20,000 bottles have been sold and hundreds of public endorsements have been voluntarily offered by grateful patients.

As "Tears tell the Story" in love, just so do figures disclose the true merits of a product in the commercial world. And figures like tears don't lie. One hundred thousand people would not have taken Trutona unless, as is the case, it be a medicine of remarkable merit. True, several thousand bottles might have been disposed of through brilliant advertising but without the merit—the remarkable merit which has produced the thousands of repeat sales for the Perfect Tonic, we could never be able to claim the amazing sales figure of 175,000 bottles.

The actions of 100,000 people have proven beyond the shadow of doubt that Trutona is a medicine of remarkable merit—a preparation meeting every requirement for which it was so scientifically compounded.

If the opinion of 100,000 people impresses you as being worthy of consideration, go to the Trutona dealer at once, buy a bottle of the Perfect Tonic and wear the "Trutona smile of Health" as thousands of your friends are doing today.—Adv.

**MARIETTA REAL ESTATE DEALER LAUDS TRUTONA**

"I Simply Feel Like a New Man Since Taking It," Mr. Neece Declares.

**VETERAN OF CIVIL WAR IS ENTHUSED OVER MEDICINE**

Marietta, O., Nov. 28.—"I simply feel like a new man—just years younger, since I have taken Trutona," Mr. S. R. Neece, 79 years old, a well known Marietta real estate dealer who lives at 814 Front Street, said a few days ago.

"I am a veteran of the Civil War," Mr. Neece continued, "and it was while I was in service that I first began to have trouble with my liver and kidneys. I suffered terrible pains in my back and sides and pains also came into my forehead and the back of my neck. My appetite was very poor and what food I did eat didn't agree with me or digest properly. I often experienced dizziness. I was constipated, too having to take laxatives most of the time.

Well, sir, since taking Trutona I'm convinced that I'll live past the 90 year mark. The pains in my back and head have all left me and my sight is much clearer than before. My kidneys don't give me the trouble they did before I took Trutona. I simply can't get enough to eat nowadays and I sleep much better too. Trutona has made a different man of me, and I can truly say that it is the best medicine that I have ever taken in my life. I want the people in Marietta and elsewhere to know what Trutona has done for me."—Adv.

## DRUGGISTS AND DOCTORS ASTONISHED AT WONDERFUL POWER OF NICOTOL TO STOP THE USE OF TOBACCO TO DETECT HARMFUL EFFECTS OF TOBACCO TRY THESE SIMPLE TESTS

New York.—Mr. Tobacco User, any druggist will tell you that a remedy to be successfully sold must, above everything, possess merit, otherwise failure is inevitable. Nicotol, the famous remedy for the tobacco habit, was a success right from the start, simply because it quickly does the work promised. We publish a few letters from some of the best known druggists in the country to give you an idea of what they think of Nicotol, and you may rest assured that they would not permit the use of their names unless Nicotol was something out of the ordinary. The Peoples Drug Stores have five of the best stores in Washington, D. C. They write: "Since we have handled Nicotol the sale has been greater than that of all the rest of the articles of this nature which we have ever sold. The demand was so great that we were compelled to order it locally pending receipt of a shipment from you direct." Schramm Johnson, who has six stores in Salt Lake City, says: "We take this opportunity of expressing ourselves relative to Nicotol. We have enjoyed a very large sale on same and it has given entire satisfaction to our customers." Jacob Brothers of Philadelphia, Pa., have this to say: "Our sales of Nicotol have passed our expectations. Our first order was placed late in March and we were forced to reorder before the end of April; the sales have kept up well ever since. There is no doubt that we are receiving many repeat orders from our customers and many expressions of

opinion regarding the merit of this article have been very favorable." Dr. Conner, formerly of John Hopkins Hospital, tells how to detect the harmful effects of tobacco. Here is what he says: "Many men who smoke, chew or sniff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would never have been affected had it not been for the use of tobacco to excess, and thousands would soon get well if they would stop. The chief habit-forming principle of tobacco is nicotine, a deadly poison, which when absorbed by the system, slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, mental confusion, etc. Others may suffer from heart disease, bronchial trouble, hardening of the arteries, tuberculosis, blindness or even cancer or the common affliction known as tobacco heart. If you use tobacco to excess in any form you can easily detect the harmful effects, by taking the following simple tests: Read aloud six full pages from a book. If in the course of reading your voice becomes muffled, hoarse and indistinct and you must frequently clear your throat, the chances are that your throat is affected by catarrh and it may be the beginning of more serious trouble. Next,

in the morning before taking your usual smoke, walk up three flights of stairs at a regular pace, then stop. If you find that you are out of breath, your heart beat is forced, trembling or irregular, you may be a victim of functional or organic heart trouble. If you feel that you must smoke, chew or sniff to quiet your nerves, you are a slave to the tobacco habit and are positively poisoning yourself with the deadly drug nicotine. In either case you have just two alternatives—Keep on with the self poisoning process, irrespective of the dangers and suffer the consequences or give up the habit and escape the dangers. You can overcome the craving and stop the habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol tablets, take one tablet after each meal, and in a comparatively short time you will have no desire for tobacco—the craving will have left you. With the nicotine poison out of your system, your general health will quickly improve." Note—When asked about Nicotol tablets one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including T. J. Evans. Adv.

### Milady's Boudoir

**For Beautiful Feet.**  
Corns or bunions are fatal to foot beauty. There are two varieties of corns, hard and soft. The soft corns come between the toes. If you have a soft corn you may protect it by placing a bit of cotton, sprinkled with alum, between the toes. Unless you insert the absorbent cotton to prevent the toes from rubbing together, a second corn will appear on the surface of the opposite toe. Sulphate of copper applied to a soft corn is a good remedy. The corn should be relieved from all pressure. For this purpose, the perforated corn plaster may be used, or a disk of white kid or chamois with a hole cut in the center.

In growing toe nails cause an infinite amount of misery. Improper footwear and improper methods of cutting the nails are the reasons for this ailment. If you cut your nails too short or wear a shoe that is too short or too narrow, you will force the skin of the toe over the nail. The flesh of the toe is pushed still further over, until a point is reached where inflammation sets in. Cut the toe nails squarely across. Do not trim them so close as to destroy the spongy substance beneath the nails. This substance is a special guard to prevent them from growing into the quick. If there is a tendency for the flesh to grow over the nail, push the flesh back from the nail and fasten it in this position with a strip of nail insert gauze packing. Bunions are the result of great pressure and friction on the joint. If not attended to this inflammation may lead to destruction of the bone. First the joints must be relieved of all pressure. A shoe, large enough for comfort, must replace the tight one that started the trouble. Shoes large enough and stockings long enough, will help to relieve this affliction.

### Our Boys and Girls

Whenever it becomes necessary to attend a sick bed, or a funeral of a friend or relative, it is always best to leave the children at home. The solemnity of the occasion often leaves the child depressed or in a sad frame of mind, a condition that should never be encouraged. Every child should be kept from a knowledge of the graver side of life until he is old enough to understand. His little mind cannot always grasp the situation in the right way, and unconsciously he is made morbid over the event. It never adds to the occasion to take the children along so if one can possibly leave them at home or in the care of a friend, it is much better to do so. Many children dislike milk as soon as they have passed their babyhood days. The food value it contains, however, are very essential to the proper growth of the children. Many mothers are at a loss for ways in which to disguise the milk, so as to make it palatable. Probably one of the best ways is to give the child a pure cocoa made entirely of milk. Cocoa can also be cooked in milk and then the milk added as it is eaten. In this way quite an amount is taken by the child.

### Everyday Etiquette

"Will you explain how the groom should dress at an informal wedding ceremony?" asked Harry. "If the groom does not care to wear the conventional outfit for a morning or evening wedding, he may wear a black business suit. With the suit should be worn a single breasted vest of the same material as the suit or of fancy vesting, a four in hand tie, tan or gray gloves, a soft or hard hat and calfskin shoes," said his brother.

"Robin Hood."  
DeKoven's "Robin Hood" pleased a large audience in the Auditorium theater Wednesday night. The presentation was the first of a number of Ralph Dunbar's attractions promised Newark theater-goers, and if those to come may be judged by this production, there is something worth while in store.

Although not a large company, the production is featured by a particularly happy selection of good singers, among the principals, notable Ralph Soule, a former Denison man, with many Granville friends who greeted him there. Soule as Robin Hood, was compelled to pass some of his numbers because of a throat irritation which was visibly embarrassing. Despite the handicap he sang beautifully. Lorna Doone Jackson, as Alan-a-dale; Ethel Tammings, as Maid Marian; James Stevens and William Degan, and John MacSweeney as Friar Tuck, were particularly well cast. Ed Andrews, sheriff of Nottingham, gave much merit as lead comedian, assisted by Saul Solomon as Sir Guy.  
The choral singing and quartet numbers were well received, accompanied by an augmented orchestra conducted by a woman, May Valentine.

The Orchis.  
Coming upon the snowy splendids orchis, alone in the dark shades of the August woods, I have felt as if intruding upon the privacy of a queen, and retreated with the obeisance due to royalty.—C. G. Whiting.

## Who Is Responsible For Smashing the Treaty?

Jubilant reigned in some quarter when the Senate's emphatic rejection of the Treaty of Versailles came as a sensational climax of one of the most bitterly fought political battles in our history. It may have been a victory, and the destroyers of the Treaty and the League of Nations "may exult in their triumph," but, retorts the Springfield Republican (Ind.), "they will go into history having constructed nothing and selfishly leaving the world to its darkness and woe." Opposing this view the New York Sun declares that "there never was anything more wrong, more ridiculous, more preposterous, than to maintain that the war was going on and must go on until the United States Senate and the American people consented to swallow Mr. Wilson's pernicious League of Nations." In fixing the responsibility, the pro-League Rochester Times-Union (Ind.) says that "the United States Senate under the bankrupt leadership of Senator Henry Cabot Lodge has killed the Peace Treaty," but Republican papers like the Philadelphia North American and the New York Tribune lay the responsibility for the failure of the treaty at the President's own door, in effect charging him with "infanticide."

Under the heading "The Rejection of the Treaty" THE LITERARY DIGEST, this week—November 29th—prints as its leading article a summary of public opinion in the United States as expressed in newspapers of all shades of opinion. The article covers every phase of the controversy over the Treaty and makes very clear how the country regards the Senate's action.

AUDITORIUM "The Thunderbolt"

How a child swayed the destinies of an unhappy married couple and ended a feud that embittered the lives of two families is told in "The Thunderbolt," starring Katherine MacDonald, which will be shown at the Auditorium theater Friday and Saturday.

As Ruth Pomeroy, Miss MacDonald plays the part of a girl compelled to marry the only living member of the Corbin family, a family whose hatred for the Pomeroy's had dated back for generations, or suffer her father to be exposed as a forger.

A staggering realization of the reason why Bruce Corbin wanted to marry her comes upon Ruth Pomeroy when her unloving husband tells her that he married her not for love, but for the purpose of wiping out the Pomeroy family. She then perceives that according to his purpose her death will witness the extinction of her family.

A strong determination, backed by the fire of her pride, leads her to fight against what seems to stand for her. And her efforts against an enemy husband defeat his plans and bring happiness out of a "spite" marriage.

"The Wanderer"

In "The Wanderer," Louise Orth, plays the role of Tisha, the vampire and siren of the days of old Jerusalem. She is supposed to be the eighteen-year-old daughter of a pagan mother, Nadina, who is described as the "keeper of lodgings in Jerusalem." This somewhat vague definition is further clarified, however, as the act proceeds, and one observes that there are about a score of beautiful young women in Oriental costumes who are also residing in the house of Nadina. The young sports and blades of Jerusalem come to visit them on an afternoon, and the young Jether—played by Robert Frazier—becomes so infatuated with the fair Tisha that he takes up his residence at Nadina's house and engages Tisha to be his handmaiden.

Then comes the wonderful love scenes where Tisha, believing herself scorned and held cheap by the young Judean, woos him with the most passionate and sensational love scenes old has witnessed in many a moon.

Jether, lounging with her on dozens of handsomely embroidered pillows in the sensuous Oriental garden, loses his head completely under the spell of the enchantress and madly promises to squander a fortune for the hussy. Then, to further prove her power over the infatuated youth, Tisha entices him with wine and provocations of love to renounce the God of Judea and sacrifice before the Idol of Ishatar, the Babylonian goddess of love. After the young boy has cast off home, religion, money and everything else for her sake, and even cheats with loaded dice to obtain more money to squander upon her, the siren scorns him, laughs in his face, taunts him with his faults and goes off with the rich and capricious Tisha to "play." It is a strenuous part, but then so am I a strenuous person, and I must have some outlet for my exuberance of spirits.

Auditorium December 1 and 2.

"Maytime." Those to whom theatrical entertainment of established quality appeals potently are certain to be interested in the announcement that the offering at the Auditorium theater, Friday night, December 5th will be the Messrs. Shubert's production of the popular and "different" play with music, "Maytime."

This refreshing dramatic and musical novelty, with book and lyrics by Rida Johnson Young, and musical setting by Sigmund Romberg is, as most newspaper readers are aware, the most outstanding popular success in recent seasons in New York City, where "Maytime" ran for two years. It was seen for five months in Boston, and six months in Chicago. Staged by Edward Temple, under the personal direction of Mr. J. J. Shubert, "Maytime" utilizes the talents of a carefully chosen and uniformly excellent company of some sixty-five persons, including: Yvonne Jeanne, James R. Marshall, Otis Sheridan, Frances Golden, Philip Heege, Virginia Howells, Charles E. Verner, Teddy, Le Duc, Mary Palay, Marie Petis, Lillian Shattner, Margorie Davis, Miriam Kuzman, Richard Morgan, and a score of others. In addition, there are a round dozen of "Maytime" girls selected for their singing and dancing ability as well as for youthful good looks.

Unfolded in four acts, or episodes, the story of "Maytime" opening in 1840, carries its audience down through a period of almost eighty years to the busy times of the present day. All of the scenes are laid in New York City and the different eras depicted—1855, 1880, and 1919—are faithfully reproduced as to costumes and manners. The action begins with the love affair of Outille Van Zandt and her father's estate, Richard Wayne. Parents' opposition parts the young lovers and the girl is married off to an unspeakable cad. But an apple tree, planted before their separation, over a few years grows to cast its shadow over the house and its influence over the story for three succeeding generations. The shattered romance of Outille and Dick finds a happy culmination in the lives of the grandchildren of the original sweethearts. The musical numbers provided by Mr. Romberg are melodious, yet in no wise related to the "jazz band" or rag-time type of popular composition. "Maytime's" vocal gems—the "Will You Remember?" song which recurs throughout the performance, has already established the fame of "Maytime" wherever there is a piano or a phonograph.

ALHAMBRA "Evangeline"

Miriam Cooper, the well-known leading woman of the screen who will be seen at the Alhambra theater Friday and Saturday in the title role of the William Fox super-production of Henry Wadsworth Longfellow's immortal poem, "Evangeline," is well fitted by ability and training to give a beautifully sensitive interpretation of the great love epic. Miss Cooper is a Baltimore girl. She was educated at the New York Art school, but her career as an artist was interrupted by the call of the screen. Miss Cooper's ability soon brought her to the front rank of screen actresses. She was firmly established as a leading woman in her prominent part in "The Birth of a Nation." Miss Cooper followed this part with a long line of important roles in Fox successes, including "The Honor System," "The Saint," "The Innocent Sinner" and "Betrayed." Though Miss Cooper's art covers a wide range of characters, she is at her

best in a Madonna-like role in which her lustrous eyes and appealing beauty are seen to exceptional advantage. The part of Evangeline is just such a role, and Miss Cooper's work as the heroine is rated among the best acting ever preserved to posterity by motion picture photography.

Louis Bennison. Louis Bennison never does anything by halves. His new Betzwood production, "The Road Called Straight," which comes to the Alhambra theater Sunday required the use of a Pullman train for several incidents and a locomotive in another. Arriving at Dover, New Hampshire, where many of the Eastern scenes in the production were photographed, Bennison got into communication with officials of the New Haven railroad, and within twenty-four hours five Pullman cars, with an entire crew, were at the disposal of the Louis Bennison company.

It is one of these Pullmans that Al Boyd (Louis Bennison) is speeding to claim his bride, Betty Swiftmore (Orni Hawley) daughter of an Eastern capitalist, who, while accompanying her father on a business trip to the West, completely captivated Al Boyd. While in the train frequent flashes are shown of Boyd making merry with Baby Shirley, who later is left in his charge when her mother is left at a way station. It is the scene requiring a locomotive that Louis Bennison sustains his reputation as a daredevil Western cowpuncher. On returning from his honeymoon with Betty, Boyd takes up some business matters with her father. It is the long-looked for opportunity for Harrison Stevens, Betty's former fiance. Realizing that Betty is not in love with Boyd, Stevens persuades her to leave with him for his lodge in the mountains, giving her the impression that his mother and sister are there and will care for her. Boyd learns of their flight and plans to overtake them. He commandeers a locomotive and starts in pursuit of the train bearing Betty and Stevens. Shortly after his misguided bride and her tempter reach the lodge Boyd makes his appearance, resulting in a smashing climax in which Stevens is thoroughly trounced and left to his fate in the Green Mountain snows.

GEM. This happens in Boonsburg, where Dick had gone to send his vacation. He was from New York, and the constables of the little rural town were watching his every movement, ready to pounce upon him at the least break he would make.

A few days later he is again arrested as a confined man, bound, for having in his hotel room a bottle of hair tonic containing 65% alcohol. These and a whole lot more of equally as comical situations arise in the latest World release, "A Broadway Saint," starring the well known actor Montagu Love, and written by Forrest Halsey. This picture will be shown at the Gem theater today. Everyone who sees it will enjoy an unusually good treat. Don't fail to take it in.

LYRIC. Thanksgiving crowds were large and well pleased at the Lyric theater, with the performances given by the Orth and Coleman Majestic Merry-makers Musical Comedy company, holding the boards at the theater this week. The singing and dancing was especially good.

### COULD NOT SLEEP NIGHTS

Conneaut, Ohio:—"After the arrival of a child my health seemed to fail. I became all run-down, was weak and nervous, restless, could not sleep at night, and became so completely down and out that I was almost an invalid when I saw Dr. Pierce's Favorite Prescription advertised and decided to take it. The first few bottles gave me such wonderful relief that I kept up its use and in time I was completely restored to a strong healthy state. 'Favorite Prescription' is the finest medicine I have ever taken and I take great pleasure in giving this recommendation."—Mrs. M. F. ALLEN, 443 Lake Shore Court.

"All Run Down, Weak and Nervous".

Ashtabula, Ohio:—"Favorite Prescription" is an excellent tonic for women for their ailments. I know this from actual experience. I was all run-down, weak and nervous; it seemed that all my strength had left me. I had no ambition to do anything when I began taking Dr. Pierce's Favorite Prescription. It proved very beneficial to me for it built me up in a strong healthy condition. I heartily recommend the 'Prescription' to all weak women. They will find it good."—Mrs. E. H. SMITH, 33 1/2 Center St.

"An Excellent Tonic".

Cleveland, Ohio:—"Dr. Pierce's Favorite Prescription" is an excellent tonic for women. I have taken it for a run-down condition. Many of my friends have been benefited also and they speak very highly of it."—Mrs. W. KINTZ, 7002 Conrad Ave.

### Presiding Elder

- Feels Ten Years Younger -

Rev. W. H. J. Powell, presiding elder of the Fordyce District West Arkansas Conference, Camden, Arkansas, says "one of my parishioners recommended Dr. Chase's Blood and Nerve Tablets to me and I thank God I found this remedy for I really believe I should have died had I not found it. My strength has been restored and I feel ten years younger. Before I used Dr. Chase's Blood and Nerve Tablets, I used to be so weak, at times I had to hold on to the pulpit while delivering my sermons. There were nights when the slightest noise would awaken me as the closing of a door or the flapping of a window shade. I was nervous, had lost control of my bowels, and sometimes it seemed as though there was no feeling in my lower limbs. Sold by Druggists at 50 cents, Special (Stronger more at 90 cents).

## THE MARKETS

**Wall Street.**  
New York, Nov. 28.—Stocks were heavy to weak at the outset of today's trading, events over the holidays causing renewed selling for both account. Failure of the coal conference and latest aspects of the Mexican situation furnished the short interest, with further ammunition.  
General Motors made an extreme decline of 21 points within the first half hour, others of that group losing 3 to 7 points. Mexican Petroleum, Republic Steel, United States Rubber, Baldwin Locomotive and United Fruit were 3 to 8 points lower. Standard shares were comparatively firm, holding within 1 to 2 points of Wednesday's final quotation.  
Additions to the early reversal embraced Bethlehem Steel, Pressed Steel Car, Atlantic Gulf, American International, Retail Stores, Middle States Oil and Coppers at extreme declines of 3 to 5 points. There were feeble rallies which probably represented covering by shorts content to take quick profits. The market was clearly under bear control, however, there being inducement for support at this juncture.  
Even United States Steel and investment rails reflected constant pressure losing 1 to 3 points. The 7 per cent rate for call money failed to stem the reaction, prices going lower at noon.

**Chicago Grain Review.**  
Chicago, Nov. 28.—Corn prices went up today, influenced largely by absence of any pressure to sell and by the fact that country offerings to arrive were light. Opening prices, which ranged from 1-8 cents off to 1-8 cents up, with Dec. 1-35 1-4 to 1-34 3-4 and May 1-29 3-8 to 1-29 5-8 were followed by material gains all around. Oats sympathized with the strength of corn. After opening unchanged to a quarter cent lower, including May at 78 1-4 cents to 78 3-8, the market scored a slight general advance.  
Provisions were firm owing to higher quotations on hogs and corn. Trade, though, lacked volume.

## DECLARES HE IS HIGHLY PLEASED WITH NEW REMEDY

Well Known Thornville Citizen, Suffered From Stagnant Liver, Weak Kidneys, Nervousness, Loss of Appetite and Constipation.

New Herbal Remedy, Dreco, Gave Prompt Relief and Made Him Full of Energy.

"Seemed like I lost my taste for everything I tasted just alike. My stomach was out of order, so that I became very weak, and three years ago I was laid up in bed from these troubles, only getting temporary relief from one dose to another," said Mr. Josiah Swick of Thornville, O., near Newark.

"My liver was sluggish, and I often had dizzy spells, spots floated before my eyes; my tongue was coated, and I had a foul taste in my mouth; my kidneys were weak, and I often had dull, aching pains in my back. After each meal I'd feel very uncomfortable caused by gastritis, which gave my stomach a full, bloated feeling, often with a burning sensation.

"I dreaded for nights to come because I was so nervous I could not sleep, but would roll and toss from one side of the bed to the other, and when morning came I would be more worn out and nervous than when I retired the night before.

"Since taking Dreco all these ails have disappeared. My bowels act regularly, no more dizzy spells attack me, the bad taste and foul breath are all gone. I stoop and bend over without a pain in my limbs, and all the aches in my back in the region of my kidneys are gone. I sleep sound all night long, and have to be roused every morning. I can't say enough in praise of this great remedy, Dreco."

Dreco is made from the juices and extracts of many herbal plants, which act on the vital organs promptly and in a pleasing manner. Dreco does not contain iron, mercury, potash.

All good druggists now sell Dreco and it is highly recommended in Newark by Evans' Cut-Rate Drug Store.

## A WONDERFUL CHARACTER

MILDRED BRIGHT AS NAGHI THE COUSIN OF JETHUR IN "THE WANDERER" AT THE AUDITORIUM MONDAY AND TUESDAY, DEC. 1 AND 2

### Helium Gas Cheapened.

Up to 1015 the total output of helium gas in all the world had probably been less than 100 cubic feet, and it was worth about \$1,700 a cubic foot. But just before the armistice was signed a shipment of 150,000 cubic feet of helium gas was sent to Europe, and it costs less than 10 cents a cubic foot.

Helium gas was first discovered on the sun, by spectroscopy. It is the best gas for use in balloons, because it is not inflammable. It is now extracted from the natural gas of Texas and Kansas.

The method is delicate and complex, but is based upon the fact that the principal constituents of natural gas liquefy when cooled to about minus 229 degrees F., but that helium remains a gas at that temperature, and hence is easily separated.

### Surveyors Use Airplanes.

Four airplanes are being used to survey the extensive forests of Labrador to determine the value of the wood pulp represented by the growing trees. Aerial photographs will be taken of many parts of the peninsula for use in compiling statistics. The surveying party, which left the United States recently for Nova Scotia, is composed of 40 persons and is headed by a man who served two years as a captain in the British air forces.—Popular Mechanics Magazine.

### Rich Gift to Museum.

Field museum, in Chicago, has just been given a rare treasure trove, consisting of a collection of gold ornaments excavated from the basin of the Nechi river in Colombia, South America, last June, consisting of breastplates, aprons, elaborate earrings, bells, and necklaces, all in pure gold, forming the most valuable collection in the world of art of Colombia's ancient inhabitants.

### Telephonic Periscope.

"Sunny corner outside suite, five rooms. Can be seen by phone after 7 p. m. Bay 3161-L."—Vancouver (B. C.) Province.

An English shipyard recently completed a 500-ton concrete pontoon designed to carry a pneumatic elevator.

## WILL THE INFLUENZA RETURN?

Public Health Authorities Predict Its Recurrence

Guard Against It by Building Up the Blood

Pepto-Mangan Creates Rich Red Blood and Increases Strength.

Surgeon General Blue, of the United States Public Health Service, in a recent statement from Washington, warns the public that the much dreaded influenza epidemic will probably return this fall and winter. All medical authorities agree that the weak, bloodless, run-down individual is most likely to contract this (as well as any other infectious disease) than is the strong, robust, red-blooded man or woman. In view of these facts, it is wise to use every effort to build up the blood, and thus increase the bodily resistance to the invasion of the germs of the disease. Gude's Pepto-Mangan is an absolutely dependable red-blood builder in all conditions of lowered vitality not due to serious disease of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new hope and ambition in those who have become pale, weak, and listless. Physicians recommend Gude's Pepto-Mangan. When you order be sure the word "Gude's" is on the package. Without "Gude's" is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists. —Adv.

### A. P. Tuscher Sharpens Safety Razor Blades

A. P. Tuscher has the following to say in regard to the safety razor sharpening machine: "Everybody who had their blades sharpened are praising it. Almost every man who used them says 'the edge is far better than any new edge they ever used,' and that they are able to get several more shaves out of them."

Mr. Tuscher says the reason is "that this machine puts on practically the same kind of edge that barbers use on their razors," as this machine hones and strops the same as a barber uses a hand-strop and hone, the only difference being that the machine can do it in one-tenth the time. The new blade edge is put on by fine emerystone, which will not give the soft edge like the machine does. The self-sharper finds that it is not necessary to bear hard on the face in order to cut his beard. Mr. Tuscher advises those who shave with re-sharpened blades to soften their beard longer than they have been as the edge on the razor blade lasts longer when this is done. After using blade wipe it off good, drawing it over your hand in order to thoroughly dry it, as rust will destroy the edge. Your money will be refunded if you do not get satisfactory results from our re-sharpened blades. 11-28-11

## BOLSHEVIKS TERRORIZZ OHIO MINERS, IS CLAIM

Columbus, Nov. 28.—Reports of activity of I. W. W.'s and anarchists among the coal miners of Belmont, Jefferson and Harrison and Guernsey counties were brought back by agents from the Columbus office of the department of justice, who have been investigating conditions there. They also report that a large number of the miners there would gladly return to work, but that they fear the epithet of "scab" or bodily violence at the hands of the radicals. It was stated that an order from their union officials to return to work would be followed by a general return to the mines in the greatest coal field in the state.

## SOME STOCKS LOSE 25 POINTS FRIDAY

New York, Nov. 28.—Heavy offerings of speculative shares at extreme losses of 5 to almost 25 points caused another sharp reaction in the stock market today. Much of the selling was directly traceable to anxiety over the failure of the coal conference and the more acute situation in Mexico.
